

A Unique Educational
& Career Opportunity
*Advances in Heat Transfer Enhancement
from basic to nano*

**Summer School on
Advances in Heat Transfer Enhancement: from basic to nano
2-nd Edition
September, 17-21, 2012
Iasi, România**

ELIGIBILITY

Applicants must be:

- Senior undergraduate, master or doctoral students with an interest in heat transfer;
- Young professionals keen to improve their knowledge of current major issues in heat transfer.

If you are an undergraduate student, you should have some practical working experience or extracurricular activities in the requested area.

English proficiency:

Applicants are expected to be proficient in English, although no certificate is required.

APPLICATION PROCESS

Applicants must submit an European CV along with a Letter of Intent **until 15 July 2012.**

Please send the applications to us by email: aminea@tuiasi.ro

APPLICATION EVALUATION

Consideration is given only to complete applications. Upon receipt of your application, you will receive a confirmation by email.

An academic evaluation is made by the Summer Programme Office to determine if the Programme provides an appropriate challenge for applying participants.

You will receive an answer to your application within three weeks unless we contact you for further information. Upon acceptance, you will receive a formal letter of admission.

DEADLINE

Admission's deadline is 15 July 2012. This programme has rolling admissions, which means that the Summer Programme Office will make a decision on an application to this programme as soon as possible after it is complete. We encourage students to complete their applications early. Late applications will be considered subject to availability.
